

Seminar Calendar 2026

	Compressor	TCM I : Basic Maintenance 5 days hands-on 3'500 EUR Next courses: 13 April - 17 April 2026 (week 16)	Main components & functions Disassembly of casing, bearings & seals Inspection Measurements & checks Re-assembly of casing, bearings & seals HSE: Safe handling of components
		TCM II : Advanced Maintenance 5 days classroom & hands-on 3'500 EUR Next courses: 4 May - 8 May 2026 (week 19)	Main components & functions Principle of operation Inspection & typical failure modes Coupling installation & alignment QMS: Record of findings
	Steam Turbine	TTM I : Basic Maintenance 5 days hands-on 3'500 EUR Next courses: 17 August - 21 August 2026 (week 34)	Main components & functions Disassembly of casing, bearings & valves Inspection Measurements & checks Re-assembly of casing, bearings & valves HSE: Safe handling of components
		TTM II : Advanced Maintenance 5 days classroom & hands-on 3'500 EUR Next courses: 31 August - 4 September 2026 (week 36)	Main components & functions Principle of operation Inspection & typical failure modes Coupling installation & alignment QMS: Record of findings

Structured Seminars

Our structured seminar program allows a predictable and consistent progression of your talent. Our seminars are a balanced mix between classroom and hands-on learning.

Customized Seminars

Our customized training solutions are tailored for your needs. This may include realistic simulations of turnaround situations such as team building, response to discovery work and stress tests of teams. You set the pace of progression and objectives; we tailor your seminars. Flexible scheduling is available upon request.
