

AST Turbo is an independent service provider company in the Hydrocarbon Processing Industry and the Energy sector. Our employees provide services on critical rotating equipment to some of the biggest company of the world within the Oil, Gas and Energy sector. Headquartered in Altendorf (SZ), Switzerland, the firm has an office in Houston (TX) and several agencies all over the world.

We are a young, internationally oriented and innovative company with a flat management structure and quick decision-making. Our strength and our success result from the combination of longterm orientation and entrepreneurial thinking at all levels. We are looking for employees with passion and commitment who want to shape the future in the Rotating Equipment Industry with us.

To strengthen our team, we are looking for a

Field Service Engineer (m)

Job Information

The Field Service Engineer will provide after sales services under the direction of the Operations Manager. As AST Turbo representative on site, this role supervises under the direction of the Project Manager the commissioning, overhaul and troubleshooting of critical rotating equipment at customer's sites in the Oil, Gas and Energy industry. This role assures that the work is carried out in accordance with the customer's expectations or specifications while ensuring that safety, environmental and quality policies are adhered to.

Education / Experience

For this position, you will have at least 5 years of practical work experience in a similar function preferably gained with an OEM or an independent service provider in the Oil & Gas Industry. Ideally you have a completed apprenticeship as mechanic (truck or construction machinery), a bachelor degree in mechanical engineering is not required. Experience with steam turbines and centrifugal compressors is required whereas experience with gas turbines and pumps would be a plus.

Special Requirements

- > Male, Age 30 – 50 years
- > Based in Switzerland, preferably with CH or EU passport
- > Good skills in MS Office (Word, Excel, Power Point)
- > Fluent language skills in English, spoken and written
- > Self-motivated, with the ability to work independently
- > Honest and loyal (long term employment expected)
- > Willingness to travel up to 220 days worldwide
- > Good communication skills
- > Respect for different cultures
- > Customer and service focused attitude
- > Mechanical aptitude and skills
- > Ability to get along with others including willingness to learn and to teach others
- > Ability to read and understand technical drawings and documents as well as to write technical reports.
- > Consciousness for safety at work

We offer

- > a dynamic and attractive work environment
- > varied responsibilities within a small team
- > room for individual impact & manifold possibilities to make a difference
- > a range of long-term development opportunities
